TB45A

The TB45A offers the best of electronic technology. Energy saving function (ECO), turbo function (MAX) and multifunction electronic thermostat allow an easy and economic management of the fridge through a check and a reduction of consumptions. The standard electronic board AC/DC Danfoss converter allows a DC12-24 Volt or an AC 115-230 Volt supply. The switching between DC and AC is automatic. Three battery protection levels as standard. Thanks to its important insulation it is also a good freezer. Maximum capacity: it can also contain 1,5 litres bottles in vertical position. Can/bottle holder on the upper surface of the fridge. The handles are integrated in the cabinet fridge.

Technical data	
Height	475 mm
Width	550 mm
Depth	490 mm
Product Class	from 21 to 50 litres
Type of installation	Portable refrigerators
Gross Volume	39 L

Print date: 26/04/2018
