TB2001

Its design, strength and low power consumption make this portable fridge the essential travel mate for all journeys. Although designed initially for commercial transport it is also used extensively in cars, boats and other recreational vehicles. The TB2001 is one of the most purchased portable refrigerator for trucks in the last years. The TB2001's lid has two internal recess to hold 2x2 litres bottles. The inner light and cold build-up system are supplied as standard. The easy control panel is with manual thermostat and on-off switch. The TB2001 is also available on request at 12/24 115/230 V with electronic thermostat for the Electro Medical market.
