TB65 DD STEEL

DOUBLE DOOR VERSION: the TB steel DD have two refrigerated baskets. The double door design allows you to select individual bin temperatures to suit your needs. Run as a combination of fridge and freezer, or set up as twin fridges or twin freezers all at different temperatures. They fit a high quality insulation, internal light in each bin and mechanical closing.

REFRIGERANT SYSTEM: hermetic compressor Secop BD50F formerly Danfoss with adjustable speed and integrated electronic control. The evaporator is foamed inside the four walls of the refrigerator in order to reduce any perforation risk.

MATERIAL: The lids and bins are made of painted steel sheet. The corners of the refrigerator are covered by protective plastic angles. The handles are sturdy and retractile in order to reduce the overall size. Inside the new TB Steel you can store a 2 litres bottle in vertical position.

CERTIFICATIONS: CE, EMC, GS.

Technical data	
Height	495 mm
Width	790 mm
Depth	465 mm
Product Class	from 51 to 89 litres
