TB20AM

The TB20AM is the tall and narrow portable fridge for limited spaces on vehicles. This unit is used extensively in long distance commercial vehicles and coaches and, because of its size and strength, is often used as a step for the driver to gain access to the upper bunk. The TB20AM is equipped with the super silent BD35F Secop (formerly Danfoss) compressor that grants excellent performances and low consumptions. The portable fridge TB20AM has magnetic hinges for hermetic seal. The TB20AM is also available on request at 12/24V - 115/230 V with electronic thermostat for the Electro Medical market.
